YOUR LOCAL CLUB

SUPPORTING OUR LOCAL COMMUNITY

The Milton Ulladulla ExServos has been supporting local community groups, sporting groups, charities, not for profit organisations and worthy causes for over 20 years.

The Club participates in the ClubGRANTS program as we understand the importance of giving back to our community and the impact the funds can have for local groups as well as helping to shape the future generation through team sports, leadership and responsibility.

WHAT IS CLUB GRANTS?

ClubGRANTS is one of Australia's largest grant programs, providing more than \$100 million in cash each year to a variety of worthy causes across NSW.

Charities, sporting organisations and not-for-profit community groups are among tens-of-thousands of worthy causes funded through the program each year. At the ExServos we focus on local sporting and community groups and are very proud of the support we provide year in, year out.

The use of ClubGRANTS online is compulsory for all Clubs. Want to apply for a ClubGRANT with us? Simply visit www.clubgrants.com.au and check your eligibility.

“Our continued support of our community is one of the Board's main focuses. We will endeavour to help as many people as we can from as many organisations, groups, and sporting bodies to achieve their desired results.”

FROM THE CEO

It gives me great pleasure to present our first community magazine, which is a celebration of the many and varied community and sporting groups that the ExServos has supported over many years and their wonderful volunteers. From junior and senior sporting groups (cricket, netball, outriggers, soccer, rugby league) and support for students making the Kokoda trek, to the Entertainers, Follies and RSL Day Club, the Club is very proud to support such important local groups who are making such a difference in our community.

It also contains some feel-good stories and information on what the Club is doing to help minimise our carbon footprint, which we're also very proud of.

We hope you all enjoy it!

KOKODA TREK

The Milton Ulladulla ExServos Club have been a supporter and sponsor of the Kokoda Youth Leadership Challenge (KYLC) for many years and are proud to sponsor exceptional Year 11 students each year from Ulladulla High School to partake in the trek.

Each year students from Ulladulla High School History class are offered the opportunity to enter by writing an essay explaining why they would like to complete the Kokoda Trek. Those short listed then present a speech to an interview panel on how taking the trek would benefit them personally.

This year the Club decided to send 4 lucky students and the winners were announced at the High School Anzac Day Commemoration Celebration. The award was also proudly renamed to commemorate our ex-president Brian Wilkins and is now proudly known as the 'Brian Wilkins KYLC Award'.

The challenge includes a strenuous 10-day trek across the original Kokoda trail in Papua New Guinea, following the path of the diggers who sacrificed their lives for us.

The Youth Leadership Challenge creates a greater awareness of these sacrifices and provides a deep insight into the challenges faced by the diggers.

The Kokoda Trek is physically demanding and not only provides the students with an indepth view into the experiences of the diggers, but helps develop and nurture leadership skills that translate back into the community.

We recently caught up with the 2023 trekkers and it was inspiring to hear their stories about this life changing experience. They also presented a hand crafted timber stick made by local Papua New Guinea people to the Club Board of Directors as a thank you for giving them this opportunity. This will take pride of place in our glass Anzac Memorial cabinet in the Club.

We would also like to thank the Ulladulla High School and the RSL Sub-branch for their continued support of this great award and wonderful opportunity for our local young leaders.

IN CONJUNCTION WITH

“ I would like to express my gratitude for the amazing opportunity you gave the group and I. It was the most inspiring experience I have had, and the level of knowledge and understanding of our fallen soldiers will be treasured by me forever. It has instilled me with more resilience, strength and gratitude to live my life to the fullest and inspire those around me especially in my leadership roles within the school and outer community. It has also strengthened my goal for joining the defence force. I loved seeing the change within our group and the growth everyone experienced, it definitely was life changing. It is an incredible Youth program that I recommend should be continued for generations. ”

Ellie Fitzpatrick - Kokoda 2023

“ I am writing to thank you for the wonderful opportunity you gave me. The Kokoda Trek was a challenging, rewarding and life changing experience for me. This opportunity has given me a perspective on life that not many people have, the young soldiers that fought for us sacrificing their lives, starving and putting everything on the front line. I am now driven to educate others about our war history, what our soldiers did for us. I am determined to achieve all my goals in life and more I thought I couldn't achieve. I have made forever friendships and I am ready to make a change in our community and into my future. This experience would never have happened without the support, confidence and opportunity you have given me. ”

“ Some of the highlights of the year was the return of the Kokoda Youth Leadership Challenge. This year we selected four young leaders to attend and we enjoyed catching up with them on their return, hearing about their adventure and experiences. Being a part of the selection interview process was one of the highlights of my year, combined with one of the hardest decision-making processes to select only four. We have some exceptional young people in our community and our future is in good hands. ”

ENVIRONMENTAL Awareness

You may not know this, but your local community Club, the Milton Ulladulla ExServos Club, has implemented many small and large environmentally conscious changes to lessen our footprint over the years. We are dedicated to reducing our carbon footprint and limit waste production.

We love doing our bit for the environment

WHAT DO WE DO!

Solar Photovoltaic System: The Club installed 581 Enphase AC micro inverters, fire safe system equipped solar panels on our rooftop, each producing 370 watts, making it one of the largest rooftop systems in the southern hemisphere and saving 5,000 trees and 274,000kg of CO2 so far.

Food Waste: The Club donates our food waste to Little Forest Road, an initiative aiming for zero organic waste in our local community. They create 100% organic compost, soils and seedling mixes.

Return and Earn Recycling: Over 8 billion containers have been returned, delivering \$800 million in refunds to the people of NSW, and drink container litter has reduced by a massive 52 per cent.

Water Saving: The Club utilises water efficient glasswashers, saves water using solar and has two water tanks under our facility that catch water from the roof, used to flush the toilets.

Small but significant changes

- LED Lighting using less energy
- Promotional Screens to save paper
- Cardboard Recycling via Yumaro
- Toner Recycling
- Glass and Aluminium Recycling via Cleanaway
- Uniform recycling via Textile Recycling at the Ulladulla Waste Depot
- Membership and Eftpos Card recycling via Biome
- No single use plastic

Even small changes can make a difference!
